Improve Adhesion with Enercon Surface Treaters

Need help getting into a sticky situation? Enercon in-line surface treaters improve adhesion for a wide variety of applications, including printing, coating, laminating, bonding and labeling. Our extensive product line features the Dyne-A-Mite HP™ air plasma treater, our new Dyne-A-Mite IT™ blow down treater, and Dyne-A-Flame™ flame plasma system. Put these technologies to the test with free laboratory trials.

SEMICO DIVISION

Defoamers
ULTRA ADDITIVES INC.
DEE FO 215,
DEE FO 97-3,
DEE FO 2020/50 and
DEE FO HG-12 deliver breakthrough technologies created specifically for superior defoaming in the

resins you rely on, including EVA, PVA, acrylics, acrylic copolymers and VAE. The DEE FO family of products is a proven winner in the complete range of adhesive applications, including pressure sensitive, laminating, packaging, labeling, construction, medical and automotive. Call Ultra Additives at 800-524-0055 for more information. ISO 9001 and ISO 14001 registered.

CarbodiLife™ Crosslinking Agent
CSI EXIM AMERICA, INC.

CarbodiLife™ is a multi-functional poly crosslinking agent manufactured by CSI Industries, Inc. It reacts with carbonyl and is designed to crosslink dispersants at ambient or elevated temperatures. A non-skin irritant crosslinker provides chemical/water resistance and adhesion to the substrate. CarbodiLife™ is commonly used for coatings, inks and adhesives.

Contact the US distributor, CSI EXIM AMERICA, INC. at 917-258-8210 or e-mail: chemics@csiexim.com
